

EXTERNAL POWER SUPPLY

| OVERVIEW |

The External Power Supply is for use when the number of sensors and remote displays exceeds the current demand available directly from the panel.

| KEY FEATURES |

- 24V DC Output (625mA)
- Dedicated terminals to allow easy connection to both Gas Sensor and the Main Controller

Dimensions

Height	130mm
Width	130mm
Depth	60mm

Technical Specification

Power Supply	100 – 250VAC 50/60Hz
Output	24V DC (625mA)
IP Rating	IP66

Part Numbers & Options/Accessories

Part No	Description
PS-24D	24VDC Power Supply (Boxed)
