PART NUMBERS & COMMON ACCESSORIES

PART NO	DESCRIPTION
LSF-5	Level Switch (Float) - Liquid - 5m

| OVERVIEW |

Float switches provide a low-cost solution for liquid level and control in water tanks, and are provided with a 5m cable and adjustable weight.

Installation Information

Once wired correctly the system can be setup by putting the float into water and adjusting the cable distance between the float and gravity box, the gravity box can be stabilized on the cable using the plastic rings.
