

| OVERVIEW |

The GasMonitor Remote Display provides a clear, simple visual indication of the panel and connected sensor status for additional entrances and exits to the monitored areas.

A traffic light LCD will advise if any of the connected sensors enter alarm and the display can either scroll through the concentration of all sensor types connected or simply display the status.

REMOTE DISPLAY (24V AC/DC)

DIMENSIONS

	STANDARD	IP RATED
Height	125mm	152mm
Width	86mm	110mm
Depth	36mm	50mm

TECHNICAL SPECIFICATION

Power Supply	24V AC/DC \pm 10%
Power Consumption	40mA Max
VFC Output	SPDT - 1A @ 24V Max
IP Rating	IP40 / IP66
Approval	CE, UKCA
